

A major awareness, support and advice event

Can Wireless Technology Affect Our Health ... And Fertility?

The *Inconvenient* Reality

Health concerns include pregnancy complications, autism, ADHD, ME, chronic fatigue, fibromyalgia, electro-sensitivity, multi-chemical sensitivity, tinnitus and cancer Also ecological damage.

Organised and introduced by **Peter Gane**, supporter of the charity **Electro-Sensitivity UK** and **Jo Stallard**, CEO of the charity **Foresight –Preconception**.

With speakers :-

Barrie Trower Retired Military Specialist, involved in all aspects of 'microwave warfare', will discuss his latest research report ' Wi-Fi, A Thalidomide In The Making- Who Cares? ' Barrie Trower talks widely throughout the UK and abroad and is highly renowned and sought for his subject matter expertise and advice.

Brian Stein CBE Trustee of ES-UK and retired CEO of one of the UK's most successful food manufacturing companies. He will tell his own electro-sensitivity story and outline the essential work of ES-UK and ways to protect ourselves, others and the environment.

Dr Andrew Tresidder Somerset GP and ES-UK Trustee will give a GP's perspective of the health impact of Radio Frequency Electro-Magnetic Fields (RFEMF'S or pulsed microwaves) as used by wireless technologies and 'fields' from electrical appliances, wiring and cables.

The charity ES-UK (registered charity no 1103018) aim to help those suffering from electro-sensitivity (ES) and to educate the public about ES and related areas.

Since 1978 *Foresight- Preconception* (registered charity no 279160) have been helping couples naturally achieve a successful full-term pregnancy and healthy outcome, generally against all odds, with outstanding success. They recognise, amongst other things, the importance of avoiding RFEMF's to achieve this dream.
