

Are Microwaves from Mobiles and Wi-Fi Harming our Children?

A local seminar on the latest Scientific and Medical Research into the Health Effects of Microwave Radiation from Mobile Phones, iPads, laptops and other Wireless Devices

- The World Health Organisation has classified radiofrequency radiation, including mobile and Wi-Fi signals as a possible human carcinogen (Class 2B)
- UK Chief Medical Officers advise that children under the age of 16 use mobile phones for essential purposes only and keep calls short
- Over 3000 peer reviewed articles show effects on our biology, cells and DNA at much lower power than present guidelines, which are only based on a temperature rise
- Radiofrequency radiation during pregnancy can lead to developmental abnormalities, hyperactivity, decreased fertility and altered brain development
- Long term or high intensity exposure can lead to Electrohypersensitivity (EHS), as for ~4% of the UK population - symptoms include; headaches, dizziness, anxiety, rapid heart, nose bleeds, tinnitus, poor focus/attention, poor memory & sleep problems
- Studies predict that children absorb 60-100% more radiation into their brains than adults and 900% more into their bone marrow
- The Italian High Court ruled that an employee's brain tumour was caused by his mobile phone...

There is a lot of information (and mis-information) in the media/internet - attend this seminar to hear what medical doctors & industry experts have to say and ask them your questions directly:

Dr Elizabeth Evans MA(Cantab), MBBS(Lond), DRCOG

Dr Erica Mallery-Blythe BMBS

Alasdair Philips DAgrE, BSc(Eng), MIAgrE, MIEEE

Mike Mitcham

Wednesday 1st October 2014

7.30 pm (duration ~2 hours)

Free Admission (donations welcome at the door)

Great Hadham Country Club, Much Hadham, Herts., SG106JE

*"Schools/homes can have faster & more secure Internet access without using Wi-Fi"
"Mobile phones/iPads emit NO microwaves when in airplane mode" etc...*

Organised & funded by a Technology Consultant and father of two children who attend a local school
