

## Statement of Accountability

Name (please print) \_\_\_\_\_

Official position and/or title \_\_\_\_\_ Date: \_\_\_\_\_

I confirm my belief that the wireless technology (WiFi) that has been proposed and approved for installation (or has been installed) in \_\_\_\_\_ School is, in my informed opinion, safe for human health.

- I have been informed of the research indicating that serious biological harm can result from the radiation emitted from this kind of wireless communication system.
- I realize that the "safe levels" described in Health Protection Agency Code have been shown to cause significant damage to human cells.
- I am aware that the World Health Organization has listed non-ionizing radiation as a "class 2b possible carcinogen" under "External Agents" and risk factors for childhood cancer.
- I am aware that this wireless communication technology was never pre-market tested for safety; government safety standards are only based on exposure levels that cause 'proven' acute adverse health effects based on short-term tissue heating or electric shock. They are not set to protect against any long-term non-thermal effects of EMF exposure including behavioural problems, concentration problems, dementia and cancer.

In light of the above, I remain confident that there are no significant health risks with this technology to any adult, child, or animals within \_\_\_\_\_ of this wireless system. (Please state the proven safe distance)

If you have, or have seen, a signed assurance of the safety of radio frequency electromagnetic radiation emitted by your wireless internet technology (known as WiFi) from a medical expert with recognized expertise in the area of health effects of wireless communication systems, please list their names and credentials here:

\_\_\_\_\_

The main reason(s) I have recommended that this installation be implemented (or continued) is:

\_\_\_\_\_.

The main reason I do not advocate the fibre optic cable or other installation that has been suggested as a safer solution is

\_\_\_\_\_.

I verify that any adverse health effects at \_\_\_\_\_ School attributed to this WiFi will be covered by our insurance policy, provided by

\_\_\_\_\_ (insurance provider)
